

POLICY

- To comply with all current environmental legislation.
- To [monitor the development of environmental legislation in the UK](#) with reference to our ISO Approval body, NQA and our Dangerous Goods Safety Advisor.

OBJECTIVES

- To reduce the use of resources by using the most efficient technologies to allow paperless operation.
- To minimize empty running to improve fuel efficiency.
- To reduce the number of wasted journeys by training employees in communication skills.
- To ensure a healthy and safe work environment by regular updates of our Health and Safety Policy.
- To minimize consumption of electricity, heat and water in administrative areas.
- To effectively monitor trailer usage by use of tracking devices.

RESPONSIBILITY

- Employees have individual responsibility to comply with the policy.
- Ultimate responsibility for the Environmental Policy lies with the Directors.
